Covid-19 Best Practices and Class Preparation

The OLMC CCD/PREP Program will follow the protocols and best practices specified by both the Archdiocese of Philadelphia and the City of Philadelphia's Department of Health.

Presently, social distancing and masking in our classrooms is not required. The wearing of masks is optional. However, the CCD/PREP program will continue to monitor any changes in the recommendations and protocols from the City's Department of Health throughout the academic year, and will inform you of all changes and adjustments.

Our classrooms are well maintained, ventilated and climate controlled throughout the academic year. All tables and seats are sanitized after each class. Masks, hand sanitizers and tissues are available for students if needed. We ask each student to cover any coughs or sneezes to prevent spreading anything infectious.

Students exhibiting symptoms of Covid or a variant **should not attend** class. The following protocols must be followed:

- The student may not return to CCD/PREP before the 6th day of the positive test.
- The student is required to wear a mask if within the 6-10 day period from the day of the positive test.
- Children or adults who come in close contact with a positive case may attend CCD/PREP with a mask.
- The OLMC CCD/PREP team will communicate any Covid-related class concerns to parents/guardians via the email address provided at the time of class registration.

The continued health and safety of our students, their families and the OLMC CCD/PREP staff is of vital importance!

If you have any additional questions or concerns, please contact Bob Keough at 215-789-0849, or send an email to olmcprep@comcast.net
